Set threshold: ON/OFF  
Range: 1~82A  
Tripping switch
- Over-voltage alarm**  
Set threshold: ON/OFF  
Range: 220~265V  
Tripping switch
- Under-voltage alarm**  
Set threshold: ON/OFF  
Range: 76~240V  
Tripping switch

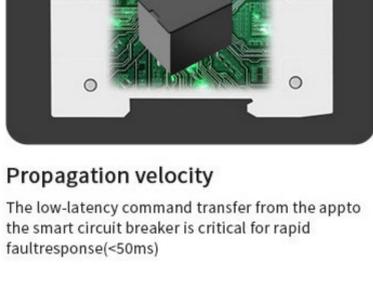

## PRODUCT DETAIL

Detail amplification and careful creation are only for providing you with better product quality.

**High-precision metrology chip**  
The high-precision metering chip ensures real-time measurement accuracy.

**Propagation velocity**  
The low-latency command transfer from the app to the smart circuit breaker is critical for rapid fault response (<50ms).

**propagation distance**  
Break Boundaries: Control Your Device Globally with Tuya App & Cloud Connectivity.
